IDEATHON THEMES

Students, dive into real-world challenges. Faculty, mentor groundbreaking solutions.

- **Open Innovation** – Redefine possibilities.
- **Automation Using IoT** – Smart systems for tomorrow.
- **Electronics in Healthcare** – Technology meets wellness.
- **Generative AI** – Next-gen creativity.
- **Technology for Social Good** – Solutions with purpose.
- **Innovative Ideas in ECE** – Advance the field.
- **Renewable Energy Applications** – Sustainable energy futures
- **Computational Intelligence** – Intelligence unleashed.
- **Machine Learning** – Patterns that predict
- **Deep Learning** – Insights from the depths

A chance to innovate and inspire!

COMPETITION PHASES

A clear journey for students to compete and faculty to assess.

Round 1: Pitch Your Idea

- Each team gets 10 minutes to present.
- Focus: Real-world use, feasibility, sustainability, strengths, and challenges.

Round 2: Showcase Your Prototype

- Only teams selected from Round 1 progress to Phase 2.
- Demonstrate a working model—hardware or software—to the judges.

**Two rounds. One goal: Innovation that
stands out**

GUIDELINES AND SCHEDULE

- **Team Size:** 2–4 members, open to all UG/PG branches
- **Presentation:** Max 10 minutes; hardware/software demos welcome.
- **Fair Play:** Plagiarism leads to disqualification. Judges' decisions are final.

Date: April 24, 2025
